Needs of City Mission,

The City Mission branch of the United Workers is in need just now of two special articles. One is a kitchen stove and the other is a baby carriage. The stove is for a mother with a brood of little children to cook for. It would be a small stove for it is to go into a cery small kitchen and it is most desirable that it should be a good one so that fuel will not be wasted nor the mother's strength too severely taxed.

Two new pastoral appointments are expected for the two Methodist churches in Norwich, a new pastor to take the place of Rev. E. A. Legg at Trinity William Crawford at the Norwich Town church.

OF INTEREST TO WOMEN A prominent physician says that by far the largest number of women's allments are not surgical ones, that is they are not caused by serious displacements or growths. Symptoms similar in character are often brought about by much simpler conditions. We therefore urge every woman who suffers from backache, head-aches, bearing down pains, side ache, irregularities, nervous despondency, or weakness to give Lydia E. Pinkham's Vegetable Compound a trial. It acts as a natural restorative and often prevents more serious troubles.
